

Using the System

Last Updated Wednesday, 15 August 2007

Only Meridian's patent-pending, dual-action system delivers maximum acne treatment without drying your skin. Highly potent acne-fighters benzoyl peroxide and natural tea tree oil are delivered in soothing, gentle formulations so your skin doesn't become inflamed, as with other acne treatments. Our light moisturizer further helps heal dry, acne-prone skin.

You can achieve clear, youthful-looking skin with Meridian's fast, simple, 3-step, once-daily system...

Meridian Gentle Cleanser – Wet the affected area with warm water. Gently squeeze a dime-sized amount of cleanser onto your fingertips. Using circular motions, gently squeeze the cleanser over the affected area. Avoid contact with eyes and lips. Rinse the cleansed area thoroughly after 30 seconds with plenty of warm water. Gently pat dry with a towel.

Meridian Herbal Clarifier with Tea Tree Oil – Soak a cotton ball or pad with a small amount of toner. Gently wipe the cotton pad over the affected area, avoiding the eyes. Allow the area to dry for a few minutes.

Meridian Fragrance-free Rejuvenating Moisturizer – (Optional, use as needed). Squeeze a pea-sized amount onto your fingertips. Apply the moisturizer sparingly. If you're feeling dry, use a little more. With small circular motions, gently massage the moisturizer over the affected area. After the light moisturizer has been applied to your skin, allow the area to dry for a few minutes. This will avoid applying any excessive pressure to affected areas while the natural ingredients work their way into your skin. Avoid using these products near the eyes or lips. Keep out of reach of children. If you are pregnant or breast feeding, consult your doctor before using. Discontinue use if irritation occurs.
